freshwater™

Salt System

Better Water, Less Hassle

Natural-feeling water with less chemicals and no harsh odours

Save money and conserve water by reducing water changes

Save time maintaining your spa with automatic chlorine generation

The maintenance-free titanium cartridge is hidden away in the spa and can be replaced in seconds, without tools.

One 3-pack of titanium cartridges gives you a year's worth of water care*

The FreshWater Salt System is an affordable and easy-to-use water care system that keeps spa water clean and clear for a full year.*

A disposable titanium cartridge creates chlorine from salt and gently releases it into the water keeping it clean and ready to use with less work. Reduced chemical use extends water life and helps it feel soft and natural, so you will spend more time enjoying your spa. Combine with a FreshWater$_{Ag+}$™ Silver cartridge for the ultimate water care solution.†

Available on 2019 Highlife® Collection and Limelight® Collection Spas

HotSpring®

Every day made better™

**Many factors impact the life of the hot tub water, such as bather load and water chemistry. When these factors are accounted for and the spa is properly maintained, the FreshWater Salt System will keep water clean and clear for a full year.*

†Only available in select countries. Ask local dealer for availability.
