Hot Spring Spas App

Powered by the Connected Spa Kit, the Hot Spring Spas app allows you to control and monitor your spa any time, from virtually anywhere. Keep an eye on spa status, change key settings, manage installed accessories and set up customised alerts. And do it all conveniently from your mobile phone.

Download the app today and try the demo mode.

Technology That Simplifies

Convenience

Remotely control key spa functions like the FreshWater® Salt System, jets, spa lighting and more. Set up guest users so others can monitor your spa when you are unable to.

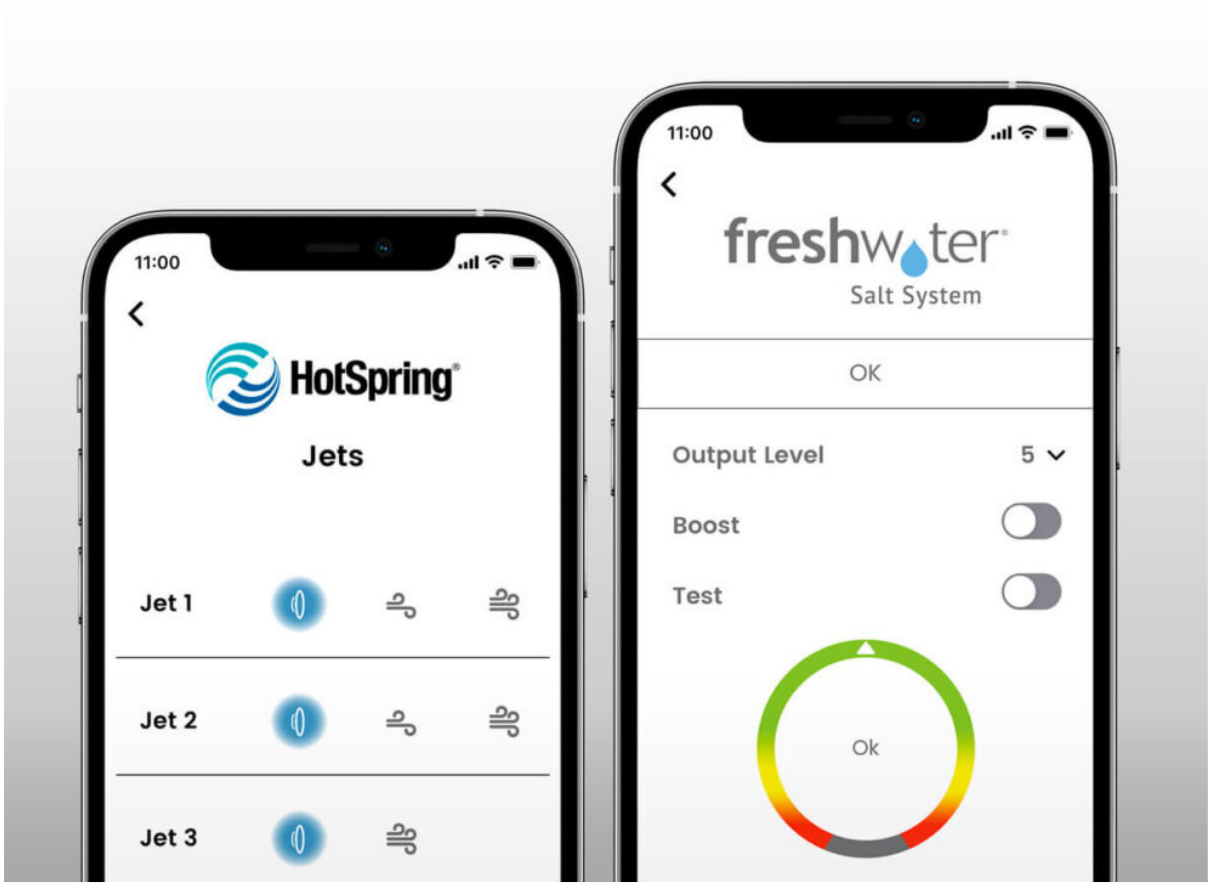

Peace of Mind

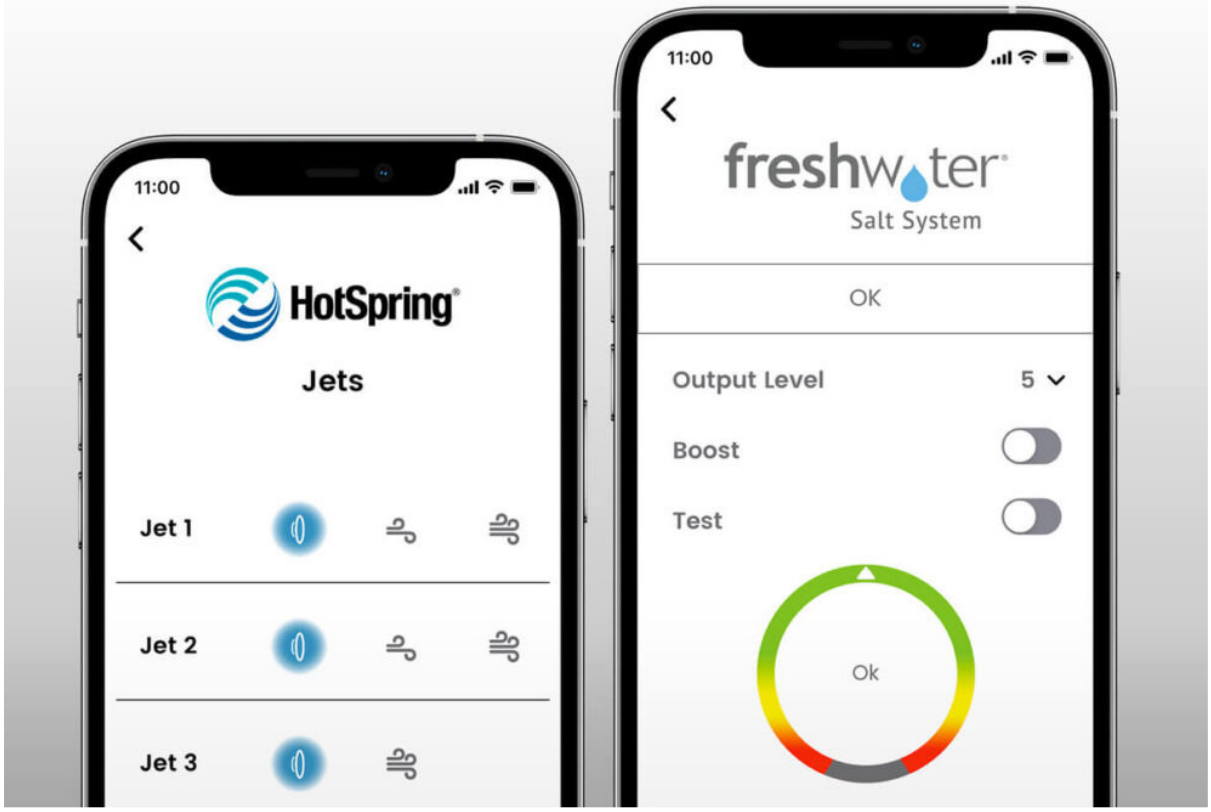

Check on what’s happening with your spa, even when you’re away from home. If you’re on the go or have a second home, you’ll enjoy the comfort of knowing your spa is being monitored.

Easy Spa Ownership

Monitor regular maintenance needs. Locate your closest dealer within the app to schedule service without delay.
